SKIN

Alumier Chemical Peel

Alumier chemical peels can be used to fix a number of skin concerns whether it be aging, pigmentation or acne. The unique experience includes an exfoliating peel treatment, brightening enhancements and prescriptive serums to reveal a more radiant, soft and luminous skin.

£130 (Course of 3: £350)

Foaming Enzyme Facial

Designed to revive tired and congested skin, this results-driven treatment features a powerful Foaming Enzyme Masque system which will exfoliate and deep cleanse. This professional treatment combines the highest grade pharmaceutical strength complexes and serums to reveal brighter and tighter radiant skin.

£90 (Course of 3: £250)

All skin treatments can include a complimentary, in-depth skin consultation that will be carried out by our qualified team of aestheticians prior to the skin treatment. Using our state of the art Observ Skin Analysis System we can accurately diagnose under-lying skin conditions to help determine your treatment plan.

Glass Skin: BioRepeel

Revitalize your skin with our Rejuvenation Fusion treatment, featuring BioRePeel for deep exfoliation, hydration, and anti-aging benefits. This treatment leaves your skin smooth, refreshed, and gives you the viral glass skin effect. For enhanced results, you can add microneedling to stimulate collagen production and improve absorption. This treatment offers visible improvements for a rejuvenated complexion.

£80 (with microneedling £180)
Course of 3: £220
(with microneedling £500)

Fire & Ice Resurfacing Treatment

The Hollywood favourite - this intense treatment is clinically formulated to rapidly and safely resurface the skin, reduce fine lines, address problem skin and encourage cellular renewal. Encompassing two professional treatment masques. A must before a big occasion or holiday.

£90 (Course of 3: £250)

SKIN

Deluxe Dermaplanning

£50

Experience smooth, radiant skin with our Dermaplaning service, which includes a cleanse, mask and LED Light Therapy. This treatment removes dead skin and peach fuzz, revealing a fresh, glowing complexion. Allowing make up to sit flawlessly on the skin.

Carbon Laser Facials

Carbon Clear 3G Facial

A high performance treatment designed to reduce breakouts & clogged pores, to reveal a clear complexion. This advanced facial uses the power of laser to target the dermis layer in the skin, which will minimise excess oil & reduce inflammation surrounding breakouts. Ideal for oily, congested or acne prone skin. The Carbon Clear Facial leaves your skin visibly clear and refreshed. To enhance results, the treatment is finished with BLUE LED Light Therapy to further kill bacteria and reduce inflammation.

£95 (Course of 3: £260)

Carbon Bright 5G Facial

The Carbon Bright Facial is a powerful solution for targeting both epidermal and dermal pigmentation, this treatment is designed to even skin tone, remove dark spots, melasma and any unwanted freckles. This advanced facial uses laser to lift pigmentation while the carbon peel gently exfoliates dead surface skin cells leaving the skin even, smooth & rejuvenated.

£110 (Course of 3: £300)

Carbon Renewal 3G Facial

The ultimate skin refreshing treatment. This facial uses advanced laser carbon technology to gently purify & refine your skin, removing impurities & promoting a radiant and glowing complexion. To enhance results, the treatment is complimented with Red LED Light Therapy to boost collagen production. Ideal as a pre-event treatment to achieve a fresh luminous complexion, ready for any occasion.

£95 (Course of 3: £260)

Microneedling

Experience the transformative power of microneedling with Skin Pen. This innovative device uses tiny needles to create controlled micro-injuries on the skin, the depth of the needle is able to reach the dermis layer in the skin, causing the natural wound healing response to remould your skins current condition. Say goodbye to fine lines, hyperpigmentation, stretch marks and most importantly acne scars, as the Skin Pen works its magic.

£160 Course of 3: £440
Course of 6: £800

Advanced Hair System

The Calecim Professional Advanced Hair System uses stem cell technology and the powerful PTT-6® complex to stimulate hair growth, activate follicles, and reduce inflammation. It rejuvenates the scalp, improves circulation, and nourishes follicles for stronger, thicker, and healthier hair. With continued use, it helps repair damaged strands, enhance texture, and promote natural hair regeneration for fuller, more vibrant hair.

In-Clinic Programme

£1000

This programme requires you to visit the clinic once a week for 6 weeks. After the initial 6-week treatment period, there will be a one-off top-up session at 3 months. To maintain results, we recommend a maintenance session once a year after 6 months.

In-Clinic and Home programme

This comprehensive 6-week programme combines the use of an Activator applicator at home, alongside two in-clinic treatments. The synergy of these treatments enhances scalp health and promotes hair regrowth. After the initial 6 weeks, there will be a one-off top-up treatment at 3 months, and after 6 months, we recommend a maintenance session once a year.

£490

Maintenance Session

Following this program, a top-up session will be required 3 months after your initial treatment. Afterward, a maintenance session will be recommended annually to ensure lasting results.

CoolSculpting®

CoolSculpting® freezes fat cells and destroys them permanently without the need for surgery. It is non-invasive and safe and delivers outstanding results in just a matter of weeks. CoolSculpting involves no needles, requires no anaesthetic and there's no downtime following treatment, so you can go about your daily life after treatment without any healing time.

Get in touch to book your free consultation

With over six million treatments performed worldwide. CoolSculpting® is the only FDA cleared fat freezing treatment. which permanently and safely removes 20-25% of the fat cells in the treated area. CoolSculpting® can treat the following areas: Abdomen, Thighs, Bra fat, Double chin, Flanks/Sides, Upper arms, Chest & Banana Roll.

CoolSculpting targets subcutaneous fat located beneath the skin's surface, effectively addressing areas that may be resistant to traditional gym efforts. This unique approach allows for the precise cooling of fat cells, resulting in their gradual reduction and elimination from the body, without harming surrounding tissues. By specifically targeting these stubborn fat deposits, CoolSculpting offers a tailored solution for achieving a more contoured physique.

Coolsculpting provides individualized treatment options, with pricing dependent on factors such as the targeted body area and the percentage of fat to be eliminated. During the consultation process, a customized treatment plan can be developed to meet each patient's unique needs and goals.
